

TENURE-TRACK—FACULTY POSITIONS STEM CELL INSTITUTE

Montefiore

The Ruth L. and David S. Gottesman Institute for Stem Cell and Regenerative Medicine at the Albert Einstein College of Medicine in New York (<https://www.einstein.yu.edu/centers/stem-cell/>) invites applications for two tenure-track positions at the **Assistant, Associate, or Full Professor** level to pursue research in stem cell biology. Potential areas for recruitment include, but are not limited to, intestinal stem cells, hair follicle stem cells, embryonic stem cell differentiation and iPS cell biology to study hematopoiesis, single stem cell technologies (e.g. proteomics and imaging) to understand tissue homeostasis, and cancer stem cells. New and renovated state-of-the-art laboratory space is available to expand the stem cell research base at Einstein. Generous packages will be provided to start up and sustain the laboratories of successful candidates. Einstein is located in a pleasant residential area in the northeast corner of New York City, with easy access to Manhattan and the suburbs of Westchester County and Connecticut.

Candidates should submit a curriculum vitae, a statement of research interests and future plans, and have three reference letters sent to the attention of Dr. Paul S. Frenette, email: stemcell.einstein@gmail.com.

Deadline for applications: November 30, 2019

The Albert Einstein College of Medicine is an equal opportunity employer.
