

From the Department of Pathology:

In order to support and enhance collaboration between institutions, investigator-initiated research and all other funded research, the department of Pathology has created a Research Oversight Committee. This committee reviews, provide guidance and approves prospective submitted research study requests that intend to utilize Pathology services. Upon approval, the Pathology price file will be shared with the investigator for their review an agreement. To initiate the process the investigator(s) must complete and submit their respective intake form(s) below by accessing them through the provided hyperlink(s) below: **(NO research projects or utilization of Pathology services will be considered without the completion and submission of this form)**
