screenplus@northwell.edu

Dear Parent(s),

Congratulations on your new family member! You recently gave birth at **Long Island Jewish Medical Center**, so your baby is eligible to participate in **ScreenPlus**. ScreenPlus is a study that offers parents the option of having their babies screened for 8 additional disorders on top of the routine screening performed by New York State. In the rare case that your baby has one of the disorders on the ScreenPlus panel, it is helpful to know as early as possible. Participation in the ScreenPlus is free of charge.

A study member may have visited you to invite you to participate in the study. However, if we missed you during your stay, our team may contact you by **email, phone, or MyChart message** to see if you are interested in joining. **You can also scan the QR code below to learn more about the study, connect with our team and enroll in ScreenPlus!**

If you have any questions, comments, or do not wish to be contacted, you can reach us by email at **screenplus@northwell.edu**. For more information, you can also visit our website at www.ScreenPlusNY.org.

Sincerely,

ScreenPlus
