RESOURCES

Patient-Reported Outcome Measures Information System (PROMIS) – *Website of publicly available measures from the NIH Common Fund for assessing patient reported health status for physical, mental and social well-being.*
https://commonfund.nih.gov/promis/index

Grid-Enabled Measures (GEM) – *Web-based repository of behavioral, social science measures organized by theoretical constructs. Users can search for and download measures, rate and comment on measures, add constructs or measures to the database, and contribute to existing information about constructs and measures.*

https://gem-beta.org

e-Source Book for Behavioral Science Research – *Website supported by the NIH's Office of Behavioral and Social Sciences Research (OBSSR) for an eBook containing 20 interactive chapters to answer methodological questions about conducting behavior and social science research.*
http://www.esourceresearch.org/

Reach, Effectiveness/Efficacy, Adoption, Implementation and Maintenance (RE-AIM) Evaluation Framework – *Website with a wide-variety of resources for investigators wanting to apply the RE-AIM framework in health-related research to enhance the public health impact of efforts to translate research into practice.*
http://re-aim.org

Dissemination and Implementation (D&I) Models – *Interactive website to help researchers select, adapt and integrate D&I Models to address study research questions and find existing measurement instruments for the model constructs.*
http://dissemination-implementation.org

National Diabetes Education Program (NDEP) – *Website with a wide variety of educational resources related to diabetes prevention and control. Search tool can access information by audience language or ethnicity. Also included is information on the measurement of treatment adherence in diabetes.* https://www.niddk.nih.gov/health-information/health-communication-programs/ndep/health-care-professionals/medication-adherence/Pages/default.aspx
