

From the OFFICE OF THE DEAN

Dear Einstein Community:

I'm pleased to announce that Jennifer Garner has been appointed senior associate dean for operations and finance at Einstein, effective October 2, 2023.

Jennifer brings to this role 23 years of experience in finance and operations and a track record of successful strategic planning. In her new role she will help to establish and assess priorities involving the College of Medicine's overall operations and budgetary resources to ensure that planning, action, and measures of success are properly aligned to advance Einstein's mission.

Prior to assuming this new position, Jennifer has served as senior director in the department of medicine at Einstein and Montefiore, where she oversaw the financial and operational integrity of our department's \$84 million clinical budget and \$66 million research budget. Jennifer worked closely with me in spearheading strategic planning efforts and in implementing innovative programs that led to substantial annual increases in both departmental revenue and in provider clinical productivity. Additionally, she headed a highly skilled leadership team responsible for all administrative and financial operations within the medicine department, encompassing each of our 14 divisions. Her commitment to excellence in operations and financial management ensured that our department could fulfill its mission and achieve its goals.

Jennifer's prior roles include administrator of the division of endocrinology, diabetes, and bone disease at Mount Sinai Health System and operations director at the Hospital Medicine Group in Baton Rouge, LA. Both roles highlight her unwavering dedication to financial proficiency, operational streamlining, and strategic leadership within the healthcare sector. Her expertise encompasses effective management of faculty and staff, meticulous budgeting, grant allocation, fostering operational efficiency, and using data-driven strategies to optimize revenue and resource allocation.

Jennifer earned her bachelor's degree at the University of Southern Mississippi and a master's degree in social work at Louisiana State University.

Please join me in congratulating Jennifer on this well-deserved appointment. I am confident that her leadership and insights will greatly benefit Einstein.

Warm Regards,

Yaron Tomer, M.D.
Incoming, The Marilyn and Stanley M. Katz Dean
Albert Einstein College of Medicine
