

FROM THE _____
OFFICE OF THE DEAN

Dear Einstein Community:

I wanted to share some uplifting news with you about a member. Each spring, the Gold Humanism in Medicine Honor Society—a national group that honors students, residents, and faculty who exemplify compassion, empathy, and humanistic care—inducts its new members.

This year, Sergeant Asher Cazley, a member of the Einstein security team assigned to student housing, received the Vivien T. Thomas Award from Einstein's Gold Humanism Society. He was selected by the students for his outstanding support of our student community. Sergeant Cazley is known for his ability to listen and provide comfort, and for making the housing security desk a “safe haven,” a gathering place for students to unwind after a difficult or stressful day.

I want to personally thank Sergeant Cazley for his concern for and dedication to our students and his part in making Einstein so special.

Best regards,

Yaron Tomer, M.D.
