

Dear Einstein Community:

We are delighted to present to you the new [Einstein Strategic Plan 2030: Forging Our Future Together](#).

Einstein is poised for substantial growth and progress. The recent transformative gift benefiting our medical students, the achievements of our groundbreaking research enterprise, and our enduring commitment to health equity open up abundant opportunities for innovation and success. The strategic plan captures our strengths and recent momentum and provides a roadmap for the next five years.

The strategic plan was shaped by the insights and contributions of over 275 members of our community and is based upon four core pillars: education, discovery, health equity, and people. Each pillar is critical on its own, but together they form a solid and distinctive foundation upon which we can build toward our future.

We thank those of you who have already played a part in this important initiative and welcome those new to the project. Its successful implementation will rely on our collective effort, and we look forward to working with each of you to achieve our shared goals.

Best regards,

Yaron Tomer, M.D.

The Marilyn and Stanley M. Katz Dean
Albert Einstein College of Medicine

Elizabeth A. Kitsis, M.D.

Senior Associate Dean for Faculty Affairs
and Strategic Planning
