In case you missed it...

Students, postdocs, associates and faculty convened in the 5th Floor Lecture hall on December 5 to hear Dr. Kevin Grigsby, from the Association of American Medical Colleges (AAMC), discuss tools and techniques for managing interpersonal conflict. Dr. Grigsby helped us understand the fundamental concepts of conflict management and then taught some practical strategies and effective methods for coping and managing workplace conflict.

In his workshop, Dr. Grigsby provided pointers about how to be a generous listener, had us practice E.A.S.Y. conversations, and explained how to remain solution-focused when we have a conflict with others.
